Re: Doing any kind of business in or with China

Letter of Invitation

Hainan Pioneer Silk Road CEC Ltd. is a new highly diversified company built and registered on Hainan Island. It was officially certified by the Hainan Government on August 24, 2021.

Hainan is China's largest Free Trade Port and the priority development area in Chinese politics now.

I am the founder and co-owner of Hainan Pioneer Silk Road CEC Ltd. - a company registered to work in 49 industry areas. That list can be found on the last pages of the Prospectus. The Prospectus can be downloaded from the "docs" page of the internet site <https://hainanmegaportal.com>.

"As China's largest special economic zone, largest free trade pilot zone and only free trade port with Chinese characteristics, Hainan is committed to building into a comprehensive deepening reform and opening up pilot zone, a national ecological civilization pilot zone, an international tourism consumption center, and a major strategic service guarantee zone."

http://en.hnftp.gov.cn/hainan/overview/202003/t20200317_3263798.html

Hainan is the future of China. Hainan Island is sometimes called the Hawaii of China and also the "Second Hong Kong" but is 20 times bigger than Hong Kong. We are now in the first year of China's five-year development plan for Hainan.

I've lived in Beijing for the past 12 years and know the incredible size, speed and efficiency involved when top politicians undertake a project.

At this time development in Hainan is still in the formative stages which means it is still possible to get into this market at the foundation for relatively low cost. More broadly, our company can help foreigners do any kind of business anywhere in China through our parent company Hainan Pioneer Silk Road CED Ltd.

If you are interested in doing business anywhere in China, Hainan Pioneer Silk Road CED Ltd. can save you a great deal of time, money and frustration. Chinese systems, even the newest and best can be a little complicated sometimes especially if you don't speak Chinese.

As of September 2021, Hainan Pioneer Silk Road Ltd. is still a very new startup and I am traveling through several Silk Road countries to:

- 1) Assist foreigners in setting up businesses in China,
- 2) Purchase property in Hainan or China. The property prices in Hainan will skyrocket in coming years. Real Estate investments in Hainan may be the single fastest growth investments in the world during the next five years.
- 3) Assist foreign companies in purchasing products and services from China,
- 4) Assist foreign companies that want to market products or services in China,
- 5) Assist foreign companies in finding manufacturing resources in China,
- 6) Assist foreigners in investing in different Chinese industries in China,
- 7) Help foreigners find a job and get visas (Exit and Entrance Bureau) and work permits (Experts Bureau) in China,
- 8) Find investors for our existing and potential business entities and,
- 9) Provide general consulting and accounting, and legal services for businesses and investors in China.

Our registration capital at start-up was 5.3 m Yuan and we'd like to believe that's just the beginning.

All of our registration papers and other official documents are open for inspection. Our client information is sacrosanct, however we the founders of Hainan Pioneer Silk Road Ltd. believe in absolute transparency in regards to our own company's workings.

As the primary shareholder in Hainan Pioneer Silk Road Ltd. I Gregory Brundage cordially invite everyone with any interest in business and/or education in China to talk with me and my business manager Miao Hui who is based in Beijing.

Thank you for your kind attention and please don't wait too long to join the fastest growing projects in the world's fastest and most reliably developing economy, even during these times of COVID-19 and other market instabilities.

Note 1: I am a researcher and writer, not a graphics arts or web designer.

I spent a couple of weeks doing the research and writing for the three proposals posted on the Docs page of the company internet site, then made the graphics and started building the internet site in three days. Meanwhile Miao Hui takes care of the business aspects of this company. For business-oriented questions it is probably better to speak with her directly. I personally am semi-retired and find this a pleasant diversion. Ms. Miao however is a real business professional and has teams of assistants in several cities.

After that I and co-founder Miao Hui spent a very pleasant week in Hainan which was followed by a week making preparations for this marketing venture.

The graphics on this document and website are just preliminary samples and the website is 1) far from complete and 2) only a sample site until a web designer is selected.

This is China and I live in Beijing. Living in Beijing one quickly learns the need-for-speed.

All that written, please consider getting in on the ground floor of the largest and fastest growing free port zone in the world. Speed is life and life is speed in today's sometimes fiercely competitive marketplace.

Gregory Brundage, September 8, 2021
